

## Consultas base de datos

La query que vamos a utilizar es la siguiente:

```
odoo=# select * from purchase_order;
```

Nota: Lo voy a hacer desde el terminal, porque desde PGAdmin me dice que no tengo permisos.

Estado de la tabla purchase\_order antes de insertar un pedido:

id	message_main_attachment_id	access_token	name	priority	origin	partner_ref	date_order	date_approve	partner_id	dest_address_id	currency_id	state	n
7			P00007	0			2022-10-18 10:42:27		65		1	draft	
4			P00004	0			2022-10-18 10:42:27		65		1	sent
